TO MAKE A MYSTOWOS WITH THIS DATA, I BET MY ABILITY IS RETURNING THE EXACT AMOUNT OF DAMAGE HE RECEIVED!
ALSO, IT SEEMS THAT HE CAN FOCUS THE ENERGY HE'S TAKEN IN TO SPECIFIC AREAS IN HIS BODY TO INCREASE ITS SPEED AND MUSCLE MASS.

SO THE LATER YOU GO, THE HARDER HE IS TO BEAT.
WELL, I GUESS IT WOULDN'T MATTER IF THE OBJECTIVE IS TO FIND THE STRONGEST ONE HERE...
HE ALREADY HAS THE DAMAGE ENERGY FROM THE LAST TWO FIGHTS

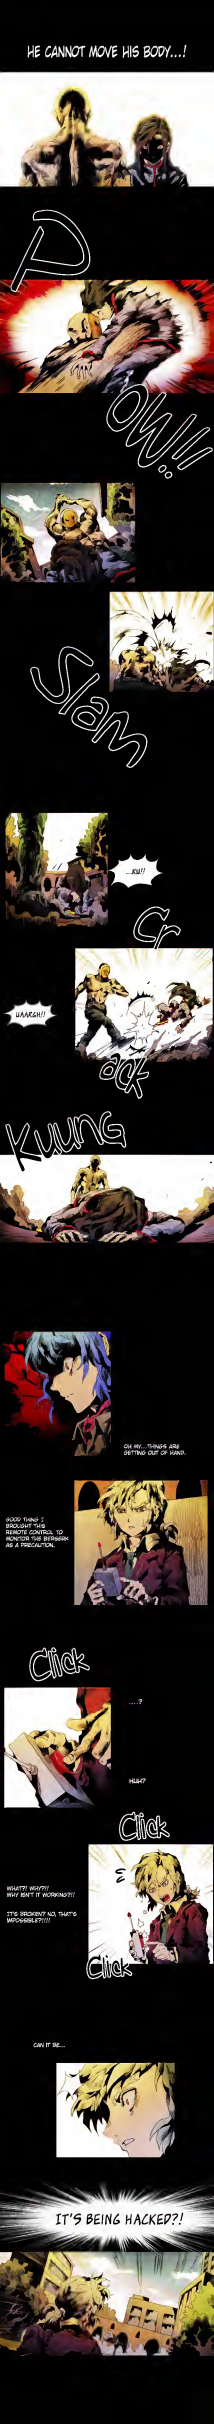
RIGHT THEN, WE USED JUST THE MENTAL SHOCK? THAT WE'RE ABSORBED AND SENT IT THROUGH THE WIRES.
AS SOON AS WE SENT THE NEURAL SIGNALS TO RIVALE,
THE BODY WASN'T RECEIVED ANY DAMAGES BUT THE BRAIN THINKS IT DID, THEREFORE
THE MIND AND THE BODY DISCONNECTS, AND FOR AN INSTANT
?



HE CANNOT MOVE HIS BODY...!

To be continued...

Crow!! Hello again my little friends!! I now continue last week's talk on witches! To briefly review, the 'witches' are unique creatures who share their soul with nature.

The witches are separated into families. There are a variety of those families, and those who belong to one same family have similar abilities. Some families have very special powers that no other families possess. The members of the same family share a 'mark'. A family tree has shown these families is that the total power of those families are always the same.

What I mean by that is, let's there are only 5 members left in the Tree Family, and the total power of the family is 10. Then one member is allowed 2 of that power. However, if three of the member were to die, then one member is allowed 5 of the power. So, the less amount of the members in a family, the more power one member can have.

As I explained before, the people who feared the Witches of the Stars hunted and killed all the Star Witches they could find, but there were 5 survivors; the 'Astral Children'!! Now think, the Star Witches were already the most powerful family, and now there is only 5 left! Can you imagine the power just one of those witches hold!

It is because of this, many fear the return of the "Astral Children". They are all commonly all the ruler, and we can know if they are even alive, but just one of them holds power that of a star!! Terrifying is it not!

So which stars survived along with the witches? As of now, those left in the solar system is the Earth, the Sun, the Moon, Jupiter, Saturn, Venus, and Mercury. It has been confirmed that there never was a Witch of the Earth, so there are only 6 stars left. But didn't I say there were only 5 survivors?

That's the mystery here. Last we've checked there are only 5 surviving Star Witches, but the stars left in our solar system excluding the earth, are 6 stars. No one has yet to figure out the puzzle.

But, surprising news!! Very recently, scientist have seized the possibility of a 7th star!! It is there for from us, emitting weak energy, but still growing! Surprise!! What can it be? What can be happening? Can it be that one of the surviving Astral Children bares a child? What a scandal!!

However, after further research, scientists have determined that this source of energy is something other than a star. Non-sunsuper and sunlesser. Something that emits energy equaling that of a star! What can it be!! So exciting isn't it!!

Starting next week: new issues of Kirk's Insomniac Weekly will start publishing again. Perhaps we will meet again in the future!! Bye everyone for now!!
